

Weekly Report (2016.10.10-2016.10.16)

Done

- 1) Finish the layout of the index web page, and add bar chart and tree map

- 2) Still try hard to resolve the problem of tree because there are too many child nodes of one parent node that the layout is chaos
- 3) Start to program the background

To Do

- 1) Finish the demo program left and deploy it to the main engine
